A Special Report on a Challenge to Host the Regional Conference on Liberalization of Services Sector: A New Era for Engineering & Related Industries, RCLSS 2013

○ **Background and Inception**

Liberalization is a relaxation of government restrictions, usually in areas of social or economic policy. This is achieved through reduced government involvement in business and the removal of barriers to doing business. Services liberalization in ASEAN has been implemented progressively under the ASEAN Framework Agreement on Services (AFAS) and 2015 will be the end-date for the liberalization of all services sectors with flexibilities. In addition to liberalization, several Mutual Recognition Arrangements (MRAs) have also been negotiated including the ASEAN MRA on engineering services which was concluded in December 2005. Malaysia's liberalization efforts are predominantly focused within Asia Pacific and nearby regions.

Liberalization benefits the economy by creating a more favorable investment environment characterized by ease of conducting business. Liberalization will attract foreign investments, specialized expertise and high-end technology; inject competitiveness and enhance productivity; enhance innovation, build capacity and upgrade skills of workforce. Professional service is the second fastest growing services sector and one of the high growth sectors is the accredited professional services sector including engineering and architecture. There is high hope that liberalization will be able to drive real growth with the end objectives of the nation becoming a regional hub for niche areas including professional engineering services. However, opening markets to foreign investment raises concerns on equity and ensuring business interest will never supersede the need to ensure safety, health and quality. The challenges of liberalization include finding the right balance between liberalization and protectionism and the need for safeguard measures. Hence, the need for a platform to deliberate on the challenges and opportunities of liberalization and what it means to the engineering and related industries [Source: *Proceedings of RCLSS 2013*].

The idea of organizing a Regional Conference on Liberalization of Services was first mooted by The President of The Institution of Engineers, Malaysia (IEM), Ir. Choo Kok Beng. Considering the importance of the services sector to a nation's economy, the President felt that it is most timely that IEM and AFEO take the initiative to organize a regional conference to deliberate on issues related to the development of trade liberalization of the services sector within ASEAN. He suggested that as Johor is developing into a strong and sustainable state of international standing, IEM (SB) should take the challenge in bringing together professionals in the engineering and related industries to deliberate on important issues of liberalization so engineers may be ready to further enhance their competitiveness. After much deliberation, the IEM (SB) Committee Members under the leadership of Ir. David Lee Hoke Hai, finally decided to take up the challenge to host the regional conference.

○ **Implementation**

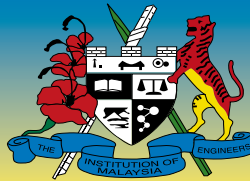

With the services sector being a new frontier in trade liberalization, the engineering and related industries now face the dawn of a new era and the RCLSS 2013 conference is aptly organized as a platform for the dissemination of information on the development of liberalization of services sector within ASEAN. The RCLSS 2013 will enable essential issues pertaining to liberalization of services to be highlighted as there will be opportunities as well as competitive challenges ahead. This conference would provide professional service providers opportunities to identify the hurdles and gold mines that are available across the region. With participation from professionals within the ASEAN countries, this conference will also provide an opportunity to promote and establish network of partnership and cooperation among the key players in engineering related industries within the region.

○ **Opening Ceremony**

With greater consciousness today on trade liberalization, the conference had attracted about 300 participants from within Malaysia and the ASEAN countries. The Minister of International Trade and Industry had given his consent to officiate the conference and he was represented by Y.B. Datuk Ir. Hj. Hamim Samuri, the Deputy Minister of International Trade and Industry who also read the Minister's keynote address.

Among others, he stressed that in order to strengthen the services sector to face the challenges of globalization, there is a need to make them more internationally competitive so that the services sector is exportable while at the same time able to withstand competition. The MITI Minister also explains that the role of MITI as the coordinator of the liberalization initiative depends very much on the support and contribution from other stakeholder Ministries, industry associations and professional bodies such as IEM and others. In line with that, a number of important services sub-

sectors have been opened up to foreign participation, either through binding commitments multilaterally, bilaterally or unilaterally through autonomous liberalization. He noted that with each commitment or autonomous liberalization being made to a service sector, extensive consultation and engagement is always carried out with relevant sub-sectors. He further explained that today, Malaysia is fully at par with the liberalization required under ASEAN and WTO commitments. Malaysia had completed on schedule the elimination of duties for intra-ASEAN trade and liberalized 96 services sub-sectors. According to MITI, further strengthening of professional services is in line with the objective of the Government to develop the industry:

- i. towards more knowledge-intensive and higher-value-added sectors;
- ii. to create synergistic linkages between sectors that would further contribute to other sectors of the economy; and
- iii. to generate high income jobs, which is linked to higher labour productivity.

The Minister also explained that regionally in ASEAN, services liberalization has been implemented progressively under the AFAS and 2015 will be the end-date for the liberalization of all services sectors with flexibilities. In the context of liberalized regional market under the AEC, there will be greater economic opportunities for ASEAN member countries as intra-regional barriers to market access are expected to be removed. To complement liberalization, ASEAN members have negotiated several Mutual Recognition Arrangements or MRAs among themselves, including the ASEAN MRA on engineering services in December 2005, architecture and quantity surveying in 2007. Despite these preferential arrangements, he noted that ASEAN Members still face the challenge of reducing regulatory barriers and enhancing market access, which is the objective of AEC. He assured that the Government will continue to undertake further outreach and export promotion programmes to create awareness among Malaysian services suppliers of the opportunities and export potential in the services sector, particularly in ASEAN.

○ **Exhibition**

The opening ceremony was followed by an Exhibition. The exhibition presented a show case from the Property Development, Construction Industry, Manufacturing Industry, Professional Services, Engineering Education, Health, Safety & Environment and Medical Technology. The exhibitors include the following and the exhibition was well received by the conference delegates and public:

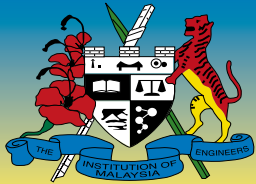

- Cahaya Bumimas Sdn. Bhd.
- Universiti Teknologi Malaysia
- AceSteel Industries Sdn. Bhd.

○ **Visit To Iskandar Malaysia**

22nd August 2013 (Thursday)

The purpose of the visit is to get an insight of the development of Flagship B in Nusajaya. The development of Flagship B – Nusajaya is focused on Educational & Medical Tourism, Entertainment & Recreation, State Government Administration, Finance and Biotechnology.

IRDA's Head of Projects & Programme Management Office, En. Mohamad bin Sa'elal gave an eye-opening briefing at IMIC, Danga Bay. The participants then had a chance to learn more about the development in the five flagship areas in Johor by visiting the exhibition area within the building. After the briefing at IMIC, the participants went on three buses to depart for Puteri Harbour.

41st ANNUAL GENERAL MEETING

The visit included Puteri Harbour which comprise of the Traders Hotel, CIQP & Ferry Terminal and Indoor Theme Park. The participants had a fabulous time at the conference welcome reception held at The LAT's place where they were entertained by a welcome dance and performance. They also had an opportunity to interact with the LAT Cartoon characters in an interactive session which was creatively tailored to the engineering profession by the LAT's place personnel.

Among other attractions, the area covered in the visit includes EduCity@Iskandar which comprise of several top universities and faculties in the world such as Newcastle University Medicine Malaysia, University of Southampton Malaysia Campus, Netherlands Maritime Institute of Technology (NMIT), Malborough College Iskandar Malaysia and Raffles University Iskandar.

Another major attraction in Nusajaya is Legoland Malaysia with a size of 76 acres and an annual target of 1 million visitors. Legoland is the first Legoland Park in Asia with 40 rides & attractions, F&B and retail outlets.

The visit ended at Kota Iskandar which is the State Government of Johor Administration Centre. Kota Iskandar comprise of various state government departments and agencies such as the State Secretariat Office, State Legislative Hall and the office of the Chief Minister of Johor.

○ Conference Summary

The conference delegates were presented with a wealth of information and many opportunities for deliberations. The plenary papers set the scene for the delegates to have a better picture of the concept and implementation of liberalization of the services sector in Malaysia and the ASEAN region and the efforts of the Government through policy oversight and coordination. The invited papers were more focused on the business opportunities as a result of liberalization. There was ample discussion on the role of SMEs in the services sector especially since the services sector is mainly dominated by small firms including professional services. There was also the discussion on the amendments of the Engineers Registration Act which is primarily driven by the Government's Commitments in International Free Trade Agreements (FTA). This was viewed by some as one that should allow engineering to grow and not hampered by unnecessary legislation. The forum discussion was focused on the cross-border engineering experience with inputs from countries including Malaysia, Singapore, Myanmar, Cambodia, Philippines and Thailand. The forum ended with a look at the way forward and the possibility and challenges for the proposal on the formation of a one-stop-center for coordinating the promotion of investment for services activities such as MIDA within the ASEAN region.

○ IEM Southern Branch Annual Dinner and Awards Night 2013

The IEM (Southern Branch) Annual Dinner & Awards Night 2013 was held in-conjunction with the RCLSS 2013 conference on the 23rd August 2013 at Persada Johor Bahru. The Honorable Menteri Besar of Johor, YAB Dato' Mohamed Khaled bin Nordin was invited as the guest of honour. Y.B. Datuk Ir. Haji Hasni Bin Haji Mohammad, Chairman of Johor Executive Committee for Public Works, Rural and Regional Development was also invited to the dinner. Other VIPs and Heads of Department from the local authorities were also invited to the dinner. It was a memorable night for IEM (Southern Branch) as it took the opportunity to award Honorary memberships to some of the outstanding and deserving individuals from the engineering industry as well as those who contributed tremendously to the engineering profession in the state of Johor.

○ The Awards

There were three categories of award conferred namely:

- The Institution of Engineers, Malaysia (IEM) Honorary Member;
- Asean Federation of Engineering Organizations (AFEO) Honorary Member, and
- Asean Federation of Engineering Organizations (AFEO) Honorary Fellow

IEM Honorary Member

The IEM Honorary member is awarded to distinguished persons who had rendered great contribution to the Engineering Profession, the Institution and/or the nation.

Distinguished recipient of the IEM Honorary Member:

Y. Bhg. Dato' Dr. Mohamad bin Hashim, Executive Chairman, Cahaya Bumimas Sdn. Bhd.

AFEO Honorary Member

The AFEO Honorary member is awarded to distinguished persons of acknowledged eminence who had rendered outstanding services to the Engineering Profession, the Institution and/or the nation.

Distinguished recipients of the AFEO Honorary Member:

Ir. David Lee Hoke Hai

Chairman, IEM Southern Branch; Managing Director, Perunding B&O.

Ir. Hj. Mohd. Khir bin Muhammad

Immediate Past Chairman, IEM Southern Branch; Executive Director, Ikasuri Sdn. Bhd.

41st ANNUAL GENERAL MEETING

IEM

(Southern Branch)

AFEO Honorary Fellow

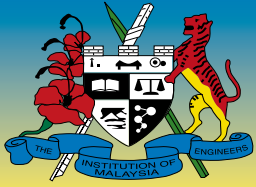

The AFEO Honorary Fellow is awarded to distinguished persons of acknowledged eminence who had rendered outstanding services and had shown selfless service without expecting public recognition. They had contributed to the advancement of the engineering profession, the Institution and/or the nation and had shown outstanding greatness of spirit, integrity and devotion to the engineering professions, the Institution and/or the nation.

In recognition of YAB Dato' Mohamed Khaled bin Nordin's contributions and services to engineering, entrepreneurship, higher education, and the public in general, The Asean Federation of Engineering Organizations (AFEQ) is honored to award the AFEQ Honorary Fellowship to YAB Dato' Mohamed Khaled bin Nordin, Menteri Besar of Johor.

○ Conclusion

With meticulous planning, concerted effort of the organizing committee, superior leadership by IEM (Southern Branch) Chairman, great support from IEM President, IEM (Southern Branch) Past Chairmen, IEM Headquarters and IEM (Southern Branch) Secretariat, the RCLSS 2013 Conference and Annual Dinner and Awards Night 2013 were successfully conducted. The response to both the conference and dinner was overwhelming with approximately 300 conference participants and 800 dinner guests. IEM (Southern Branch) is grateful to the Ministry of International Trade and Industry (MITI), the State Government of Johor and members of the ASEAN Federation of Engineering Organizations (AFEQ), generous sponsors and numerous organizations as well as individuals of whom without their support and commitment, the RCLSS 2013 Conference and IEM (Southern Branch) Annual Dinner and Awards Night 2013 would not have become a reality.

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF THE INSTITUTION OF ENGINEERS, MALAYSIA (SOUTHERN BRANCH)

Report on the Financial Statements

We have audited the financial statements of **THE INSTITUTION OF ENGINEERS, MALAYSIA (SOUTHERN BRANCH)**, which comprise the balance sheet as at 31 March 2014, and the statement of income and expenditure and statement of changes in fund for the year then ended, and a summary of significant accounting policies and other explanatory information.

Committee Members' Responsibility for the Financial Statements

The Committee Members of the Institution are responsible for the preparation of financial statements that give a true and fair view in accordance with applicable Private Entities Reporting Standards and the provisions of the Societies Act, 1966 in Malaysia and for such internal control as the Committee Members determine are necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud and error.

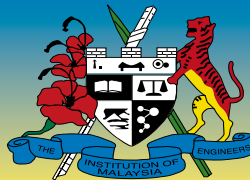

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with approved standards on auditing in Malaysia. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgement, including the assessment of risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the Institution's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Institution's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Committee, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.
