INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF THE INSTITUTION OF ENGINEERS, MALAYSIA (SOUTHERN BRANCH)

Report on the Financial Statements

We have audited the financial statements of **THE INSTITUTION OF ENGINEERS, MALAYSIA (SOUTHERN BRANCH)**, which comprise the balance sheet as at 31 March 2016, and the statement of income and expenditure and statement of changes in fund for the year then ended, and a summary of significant accounting policies and other explanatory information.

Committee Members' Responsibility for the Financial Statements

The Committee Members of the Institution are responsible for the preparation of financial statements that give a true and fair view in accordance with applicable Private Entities Reporting Standards and the provisions of the Societies Act, 1966 in Malaysia and for such internal control as the Committee Members determine are necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with approved standards on auditing in Malaysia. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgement, including the assessment of risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the Institution's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Institution's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Committee, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.
