### MESSAGE FROM IR. VINCENT CHEN KIM KIEONG

#### **PRESIDENT THE INSTITUTION OF ENGINEERS, MALAYSIA**

It gives me great pleasure to put down a few words in the IEM Southern Branch Annual Dinner Souvenir Programme 2011. I would also like put on record my sincere appreciation to the Organising Committee who has spent a lot of time in organising this event.

My heartiest congratulations too to the IEM Southern Branch for a very successful session and for the initiatives in organising many successful activities at the Branch level during the past session.

The IEM now has 11 Branches of which 9 of these Branches are based in the Peninsular and 3 in East Malaysia to take care of the interest of the members in these regions. As the IEM President, I believe that the interest of the Branches and the matters at the National Head Office carry equal weight. I also believe that relationship can be immeasurably strengthened though personal interactions between National Office and the Branch and between members and Branch at very activities being organised. Thus, the extensive people-to-people link are especially important.

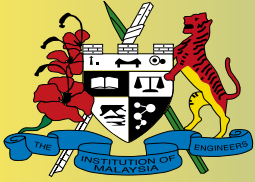

It is necessary for the Branch Committee to be active within its own region especially in organising activities and providing support services to the members residing in their area. The Branches should also take the initiative to channel engineering and technical advice and services where needed, especially to the State Government Agencies and Ministries within their sphere.

Engineers play a tremendous role in nation building and their contributions are indispensable to the country and our quality of life. The commitment of our members, both at the National and Branch levels, in working to advance our country's progress is therefore praiseworthy. Your efforts contribute to a brighter future and embody the spirit of engineering innovation.

Finally, I hope that our proactive efforts will continue in the future so as to ensure the continued success of our beloved profession.

Thank You and with warmest regards,

**IR. VINCENT CHEN KIM KIEONG**

**40<sup>TH</sup> ANNIVERSARY DINNER**

**MESSAGE FROM IR. MOHD KHIR BIN MUHAMMAD, FIEM P.ENG**

**CHAIRMAN  
THE INSTITUTION OF ENGINEERS, MALAYSIA  
(SOUTHERN BRANCH)**

Assalamualaikum wrt. wbt. and a very Good Evening,

On behalf of the Institution of Engineers, Malaysia (Southern Branch), it gives me great pleasure to welcome all of you to our 40<sup>th</sup> Anniversary Dinner.

We are very honoured this year to have the presence of Duli Yang Maha Mulia Sultan Ibrahim Ibni Almarhum Sultan Iskandar and Duli Yang Maha Mulia Raja Zarith Sofiah binti Almarhum Sultan Idris Shah to grace our occasion. I would like to express my sincere gratitude and appreciation for the privilege granted. I would also like to thank all our distinguished guests for being with us this evening.

The Institution of Engineers, Malaysia (IEM) is currently one of the largest professional bodies and learned societies in this country with membership of more than 25,000 comprising of engineers and engineering students of higher learning institutions. Our branch is among the earliest that was set-up by IEM in 1971 and this year is a very special one since it marks our 40<sup>th</sup> year in existence since its official registration with The Registrar of Society.

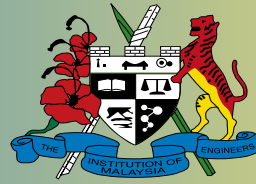

As engineering professionals, we can hold our head high since the engineering profession is still held in high regard in Malaysian society and that we are looked upon as competent and rational. With continuous and rapid changes in the demands which the engineering profession is expected to cope with, 21<sup>st</sup> century engineers like us will continue to be important contributors to economic growth and development and improved quality of life. Our engineering activity in the development of Iskandar Malaysia is only one example where we learn to cope with new challenges and show our mettle as new age engineers. We have come a long way from being those who just have good grasp of technical knowledge to what we are today. We have not only learned to be creative problem solvers, but have learned to understand the importance of working with people of various fields and disciplines as well. We have always maintained good relationship with the state government, technical agencies and other professional bodies and also deeply committed in developing future generations of engineers where half of our members are graduates and young fledgling engineers.

Tonight's event is not only the annual get-together session among engineering fraternities but also for us to network and reconnect with each other. I would like to record my heartfelt appreciation to all members of the organizing committee, comprising of past chairmen, the young engineers section and the secretariat staffs for their dedication and hard-work in making tonight's event a reality. Most importantly, I would like to thank all members for your continuous support and sincere commitment to the well being of our Institution. I hope you will continue to do so to ensure IEM's long established tradition of excellence and for the betterment of the Institution, the engineering profession and above all, our Nation.

Thank you and with warmest regards,

**IR. MOHD KHIR BIN MUHAMMAD, FIEM P.Eng**

## *The Institution of Engineers, Malaysia*

IEM is a society established to promote science and profession of engineering in any or all its disciplines and to facilitate the exchange of information and ideas related to engineering.

### **Our Vision**

The Institution of Engineers Malaysia aims to be the premier professional organization pivotal to Malaysia achieving Vision 2020.

### **Our Mission**

- IEM shall promote sound professional engineering practices in support of the socio-economic development objectives of the nation.
- IEM shall service the needs and interests of its members and the public and uphold the social standing and images of the engineering profession.
- IEM shall contribute towards nation building and shall strive to enhance society's consciousness of science and technology.

### **Our Objectives**

The objects of the Institution as set out in the Constitution shall include the following:

- to hold meetings, exhibitions and visits, and such other activities as the Institution may deem incidental or conducive to the promotion or attainment of the profession of engineering;
- to raise the character and status and advance the interests of the profession of engineering and those engaged herein;
- to promote honourable practice and professional etiquette among members of the Institution;
- to communicate to members information on all matters affecting the profession of engineering and to print, publish, issue and circulate such publications as may seem conducive to any of the objects of the Institution; and
- to do such other things as the Institution may think incidental or conducive to the attainment of the objects of the Institution.

IEM (Southern Branch)  
*Academic Awards 2011 Winners*

The Institution of Engineers, Malaysia (Southern Branch) has once again recognized the achievements of students in primary and secondary schools particularly among the children of IEM members.

As in previous years, the selection of suitable recipients is not based on academic performance alone, but also on the overall standing, behaviour, achievements, merits and personal traits of the recipients.

This year, the number of application are encouraging and on the 25<sup>th</sup> May 2011, the Committee have reviewed the submissions and approved the following applications for the Academic awards:

## IEM (SOUTHERN BRANCH) ACADEMIC AWARD

The Academic Award and Merit Award programme was initiated in 1998 with the intent to encourage students in primary and secondary schools towards achieving academic and personal excellence. The prospective recipients were selected not solely on academic result but rather with overall, standing achievements, merits in extra-curriculum activities and other positive traits.

# Arvensis Natural Energy Solutions

## Diffuse Daylight, Not Sunlight

This natural energy saving solution reduces electricity bills and carbon emissions by lowering the solar heat gain coefficient to reduce cooling, while maintaining the visual transmission of the glass to capture daylight savings. This patented nanocoating balances the cooling load of the window, rejecting over eighty seven percent of the solar heat gain.

This natural energy solution is daylight activated and incorporates ground breaking technology in the form of a Variable Optical Element (VOE), replacing commonly used light shelves and pipes. The nanostructured materials capture, transmit and redirect over four times more luminance into the building interior than conventional windows and rejects almost twice the heat of solar window films and Low E-Glass.

Please contact us further details or to find out how our natural energy solutions can assist in reducing your building's operating expenses.

## ALPHA-OMEGA ENGINEERING AOE BUILDER SDN BHD (202839-T)

**ALPHA-OMEGA ENGINEERING** piling works are of the following systems:-

- 1) **Injection / Jack-In Piling System** is TOTALLY VIBRATION & NOISE FREE to the surrounding areas.  
Ideal for factory extension works where adjacent building/structures are sensitive to vibration and noise.
- 2) **Hydraulic Hammering System** is still the cheapest and common method of piling where vibration and noise is not a concern to surrounding areas.
- 3) **Micro Bore System** is the mini version of Bore Pile and very versatile in areas where no other type of piling system can physically fit.  
It is a common combination with Injection/Jack-In piling system.

**AOE BUILDER SDN BHD** since establishment, has completed works in areas of:-

😊 **Extending** existing factories, 😊 **Constructing foundations** for machines,  
😊 **New plant within factory**, 😊 **Delicate demolishing** works inside factory.
