MESSAGE FROM PRESIDENT THE INSTITUTION OF ENGINEERS, MALAYSIA

It gives me great pleasure as President of the Institution of Engineers, Malaysia to put down a few words in the IEM Southern Branch Annual Dinner 2018 Souvenir Programme.

Our membership throughout the nation has grown exponentially in recent years and this development has brought tremendous challenges to our IEM branches to keep pace with the increasing number of members in the states and of their expectations. It is therefore important that we now expand our attention on upgrading and enabling our Branches to provide the necessary support and services to the increasing membership in the states.

Our focus shall now not just be on what the Headquarters here can do but also on what we can provide to each Branch for them to do as well, if not better. In essence, we must strive to do collectively what cannot be done individually.

But an Institution of such vast membership that spans the width of the nation needs an active personal connection. Therefore, we at the IEM Headquarters will take determined steps to strengthen the bond that we have with our Branches.

It is for this reason that I look forward to visiting the Branches during my presidential years. In particular, I would like to look into the sustainability aspects of Branch membership such as maintaining the value for membership, promoting ethics, channelling engineering and technical advice to the authorities where required, and being an influential mouthpiece from the engineers' perspective.

I am confident that the IEM Southern Branch will rise to meet any future challenges as it has done since the date of its establishment. Congratulations on all that the Branch has achieved in the past and I wish the Branch every success in the many decades that are yet to come.

Thank You and with warmest regards,

Ir. DAVID LAI KONG PHOOI
President,
The Institution of Engineers, Malaysia

MESSAGE FROM CHAIRMAN THE INSTITUTION OF ENGINEERS, MALAYSIA (SOUTHERN BRANCH)

On behalf of The Institution of Engineers, Malaysia (Southern Branch), I would like to extend a warm welcome to everyone to our Annual Dinner and Awards Night, 2018. I would like to thank our distinguished guests for taking time off their busy schedule to grace the occasion.

IEM SB celebrates its 47th year since its inception in 1971. We have grown from strength to strength under the inspiring leadership of our Past Chairman and their Committee Members. As we celebrate this auspicious day, we are very aware of the enormous challenges in the New Malaysia we live in.

The current economic climate has forced Malaysia to re-evaluate some of its projects in terms of their viability, as some were executed in the run up to the 14th general election recently. As engineers, we constantly look for ways to take the cost out of our products. How can an engineer best accomplish this without sacrificing quality?

There are savings opportunities throughout the engineering process. With effective communication and team management, it is possible to optimize the design process and reduce costs without compromising quality. High level design software also helps to significantly save time and cost in the long run although it may come at a high price initially.

Poor team communication and frequent changes are factors that increase cost. Effective communication promotes collaboration, mitigates conflict and maintains strong working relationships at all levels of an organization. With the combination of solid management practices, information technologies and strategic outsourcing, one can improve results while cutting cost.

As a professional, an engineer is guided by moral values such as honesty, integrity, determination and loyalty as well as respect for each other. These values help us distinguish between what's right and wrong for you as well as society. Following good moral values gives purpose and direction in life without the fear of getting judged.

Lastly, I would like to express my gratitude to my fellow engineers and guests for your continuous support and I look forward to a meaningful year working with you.

Ir. TEO KIYUE
Chairman
The Institution of Engineer Malaysia (Southern Branch)

IEM VISION AND MISSION

IEM is a society established to promote and advance the Science and Profession of Engineering in any or all its disciplines and to facilitate the exchange of information and ideas related to Engineering.

Our Vision

The Institution of Engineers, Malaysia aims to be the premier professional organisation pivotal to Malaysia achieving Vision 2020.

Our Mission

- IEM shall promote sound professional engineering practice in support of the socio-economic development objectives of the nation.
- IEM shall service the needs and interests of its members and the public and uphold the social standing and image of the engineering profession.
- IEM shall contribute towards nation building and shall strive to enhance society's consciousness of science and technology.

Our Objectives

The objectives of the Institution as set out in the Constitution shall include the following:

- to hold meetings, exhibitions and visits, and such other activities as the Institution may deem incidental or conducive to the promotion or attainment of the profession of engineering;
- to raise the character and status and advance the interests of the profession of engineering and those engaged therein;
- to promote honourable practice and professional etiquette among members of the Institution;
- to communicate to members information on all matters affecting the profession of engineering and to print, publish, issue and circulate such publications as may seem conducive to any of the objectives of the Institution; and
- to do such other things as the Institution may think incidental or conducive to attainment of the objectives of the Institution.

ACADEMIC AWARDS 2018 RECIPIENTS

The Institution of Engineers, Malaysia (Southern Branch) has once again recognized the achievements of students in primary and secondary schools particularly among the children of IEM Members. The selection of award recipients is not based on academic performance alone, but also on the overall standing achievements, merits and personal traits of the recipients. On 26th July 2018, the Committee has reviewed the submissions, and approved the following recipients for the 2018 Academic Awards of The Institution of Engineers, Malaysia (Southern Branch).

UPSR Category

Student's Name	Nomination By	School and Extra-Curricular Activities	Highest Academic Result	Prize
Kok Fang Lin	Ir. Puen Tak Hong (M05558) Kok Kai Chern (G17909)	SJK (C) Foon Yew 5, Johor Bahru - Certificate of Commendation (Board of Governors, Foon Yew Primary School) – Bronze Award - School Prefect (2014-2017) - Won 3 rd Placing (Under 12 Girl Category) in 3 rd Johor International Chess Challenger Open (Malaysia) 2016 - Won 3 rd Placing in 'Pertandingan Catur Persahabatan 2017' - Participated in Johor Talent Chess Open 2017 - Participated in 'Kejohanan Catur MSSD Pasir Gudang 2017' - Participated in 'Catur Remaja MBBJ 2017' - Gold Team Award Year 5, ASMO Maths Olympiad (State Level) 2016 - Bronze Medal in Singapore and Asian Schools Math Olympiad (SAMSO) 2017 - Award of Excellence in Chinese Essay - National Academic Competition (Malaysia Teo Chew Association Southern Region) 2017 - Award of Excellence in 'Karangan Bahasa Cina Sekolah Rendah Peringkat Negara ke-37, 2017' - Champion, Lions Club Peace Poster Contest 2017 - Silver Award, 1 st Southern Johor Junior Art Assessment & Appreciation 2017	8A	Academic Award Certificate, RM 100 & Book Prize
Aaron Lim Hong Rong	Ir. Lim Boon Hai (M17539)	SJK (C) Thai Hong, Skudai - Committee Member of Badminton Club 2017 - Vice-Chairman of Science, Technology, Engineering and Mathematic Club (STEM) 2017 - Troop Leader of Scout Association of Malaysia District Level (2017)	8A	Academic Award Certificate, RM 100 & Book Prize

Student's Name	Nomination By	School and Extra-Curricular Activities	Highest Academic Result	Prize
Nurfarah Ayuni binti Shaari	Ir. Shaari bin Abdul Hamid (M20844)	SK Pasir Gudang 4, Pasir Gudang <ul style="list-style-type: none"> - School Prefect 2017 - Vice-Chairperson for 'Pergerakan Puteri Islam' School level (2017) - Participated in 'Festival Saintis Muda Tahap 2', Pasir Gudang District Level (2017) - Participated in 'Kem Kepimpinan & Sahsia Diri Pemimpin dan Ahli Unit Beruniform, Peringkat Daerah Pasir Gudang' - Participated in 'Program Khidmat Sosial, Pantai Senibong, 2017' - Participated in 'Kem Kepimpinan Sekolah Agama Taman Mawar 2017' 	6A	Academic Award Certificate, RM 100 & Book Prize
Lim Yi Siew	Ir. Lim Chain Chuan (M25664)	SJK (C) Foon Yew 5, Johor Bahru <ul style="list-style-type: none"> - 1st runner-up winner of Table Tennis Championship MSSD Pasir Gudang 2017 - Participated in Ping-Pong Championship MSSD Pasir Gudang 2017 - Member of 'Pasukan Link Bulan Sabit Merah Malaysia' (2015-2017) 	6A, 1B, 1C	Merit Award Certificate & Book Prize

Betoflor is an **ENVIRONMENTALLY FRIENDLY Retaining Wall System** which is specially designed for versatile purposes such as:-

- Cut and Fill slope protection up to heights of 22 meters.
- Roadside slope protection.
- Secondary sea defence, beach and seashore protection.
- River and lake embankment.
- Landscape and garden remodeling.

Betoflor ~A Dry Built Self-Interlocking System, coupled with weight of wall and the infill materials, provides an uncomplicated solution to earth and water retention.

Advantages

- * Prevent vertical and horizontal displacement
- * Flexible Angle of Inclination
- * Simple and Quick construction
- * Unsurpassed Aesthetic Planter Pockets
- * Withstand earthquake magnitude 6
- * Cost effective

A unique System that lasts **infinitely.**

SIKA SOLUTIONS FROM BASEMENT TO ROOF

You may know us for just one skill area, but Sika has over 100 years of global experience in providing durable and high performance solutions for the key areas of construction.

Sustainability is a key component of the company's innovation drive. Sika aims to enhance durability and improve both energy and material efficiency for buildings as well as for industrial applications.

Sika's local Specification team can provide a tailored solution to your project requirements. They offer specification support and complete system details, as well as advice on life-cycle optimisation.

DecoWood

Better than Timber

UCO DecoWood is a durable wood-like strip made of fibre cement. Autoclaved in high temperatures for toughness and stability, UCO DecoWood is environmental friendly, termite-proof and weather-resistant. It is ideal for both internal and external uses, and suitable for applications such as stair risers and treads, ceilings, feature walls, louvres, deckings and fencings. UCO DecoWood is recommended to be painted to achieve a long-lasting natural timber look-alike finish.

BRC Prefab Holdings Sdn Bhd (BRC PH), a wholly owned subsidiary of BRC Asia Limited, Singapore, was incorporated in Malaysia on 16th June 2011 to introduce and replicate the BRC model of Better . Faster . Cheaper Total Reinforcing Steel Solutions in Malaysia.

BRC PH operates out of a 9.2-acre manufacturing site in Senai, Johor. BRC's teams and factories in Singapore and Malaysia stand ready to assist builders in both countries with our full suite of reinforcing steel products which are designed with the project and builder in mind to maximize building speed and minimize manpower utilization.

WE HAVE ACHIEVED!
