Synopsis

Rapiscan Systems Malaysia Sdn. Bhd. (RSM) was established in 2007 as a subsidiary of OSI Systems, Inc. a diversified company based in Los Angeles, California, USA (OSI) in the business of Health care equipment, Opto electronics, photodiodes, security equipment using irradiating source used in airports, ports, borders, events and high risk building and defence. Prior to this Opto Sensors (M) Sdn. Bhd. (OSM) a subsidiary of OSI was established in year 1994. Although RSM started business in 2007, manufacturing of X Ray machines, walk thru Metal Detectors started in year 1996 was undertaken by OSM. Rapiscan Systems has been dedicated to developing advanced technologies to combat evolving security threats and facilitate the efficient screening of people, baggage, cargo, and vehicles. Over the years, Rapiscan Systems has achieved significant milestones and expanded its presence worldwide. Through continuous research and development efforts, the company has become a trusted name in the security industry, delivering cutting-edge solutions to a wide range of sectors.

The objective of this technical visit is to understand the technological innovations of Rapiscan Systems in security and screening technology, on top of being the only said technology solution provider in Malaysia. This exposure will help engineers to understand the application of such engineering work in their field of practice or in their existing business. We are pleased to invite all members to participate in this visit. Details listed as follows:
